

Web EDI-FAQ

How suppliers could start WebEDI with Valeo?

Thomas Gries / 7/17/2006 12:06 PM

New WebEDI supplier

To start WebEDI with Valeo, the supplier should contact the Valeo plant he delivers to. An actual list of contacts for WebEDI in the different Valeo plants you find under

<https://www.esupply.valeo.com/docs/status.htm>

After the contacts for WebEDI send a request to the COC WebEDi to create the new account for the supplier and will inform the supplier about user and password for the login.

Url for the login:

https://www.esupply.valeo.com/obp/html_en/frame.html

Supplier using WebEDI for other Valeo plants

If the supplier already has an account for WebEDI and he get now new business from other Valeo plants, it is possible to add also this plant for WebEDI usage.

In this case, please also contact directly the keyuser of the Valeo plants:
